Saste Implant Ads Mein Kya Chhupa Hota Hai

₹5,000–₹8,000 ka ad dekhkar rukne se pehle yeh 4 sach jaan lo:

Non-Certified Implant Systems MATERIAL Unbranded ya counterfeit titanium — bina ISO certification. Straumann, Nobel Biocare, Zimmer jaise genuine systems ki koi precision threading ya biocompatibility testing nahi.	No CBCT Scan BLIND SURGERY Proper implant ke liye 3D CBCT scan zaroori hai — bone density, nerve position, sinus anatomy check karne ke liye. Iske bina surgery = nerve damage ka risk.
Hidden Charges GINTI MEHNGA ₹5,000 sirf implant fixture hai — abutment, crown, surgical fee, anesthesia sab alag. End mein ₹25,000–₹40,000 hi lagte hain, par inferior material ke saath.	Non-Specialist Operators RISK General dentist ya weekend certification course wale 'implantologists'. MDS-qualified implantologist jo 1,500+ implants place kar chuke ho — wahi surgical expertise deta hai.

5 Red Flags — Yeh Dikhe To Turant Bhaago

Kisi bhi Kanpur implant deal par sign karne se pehle yeh checklist chalao:

Price < ₹20,000 FLAG 1 Implant + abutment + crown ka total ₹20,000 se kam = substandard material ya misleading quote. Written itemized breakdown maango.	No CBCT Scan FLAG 2 3D CBCT ke bina implant = blind operation. Yeh step non-negotiable hai — mana karne wali clinic se door raho.
Brand Nahi Batate FLAG 3 Kaunsa implant system? Straumann, Nobel Biocare, Zimmer, Osstem ka naam nahi le rahe = unbranded ya counterfeit fixture.	No MDS Doctor FLAG 4 MDS (Prosthodontics/Oral Surgery/Periodontics) gold standard hai. General dentist + weekend certificate = jawbone ka gamble.
No Written Warranty FLAG 5 Quality clinic 5–10 saal ki written warranty + structured follow-up deti hai. Na warranty na plan = kaam last nahi karega.
